I am a self-driven software developer who loves learning new things and is passionate about utilising technology to solve real-world problems. With a Bachelor's degree in Computing from the University of Greenwich, I specialise in web development and have a strong foundation in programming principles, object-oriented programming, and database design. My passion for problem-solving drives me to create innovative and practical solutions that meet the needs of businesses and organisations. My experience with frameworks such as ASP.NET Core, Blazor, and React, combined with my knowledge of agile development methodologies and CI/CD, enables me to deliver top-notch solutions. I am a detail-oriented and collaborative individual, constantly seeking new challenges to excel in dynamic environments.

EXPERIENCE

SOFTWARE DEVELOPER, Gratte Brothers Group | MAY 2021 – PRESENT

- Successfully migrated a legacy password management application to a new Blazor web app with an ASP.NET Core backend, improving application performance, security and user experience.
- Collaborated with the development team to create internal frameworks, resulting in streamlined development processes and improved code reusability.
- Developed a new Customer Relationship Management application specific to business needs, providing better tracking of customer interactions with the sales team.
- Worked closely with product owners to scope business requirements and ensure alignment with project goals.

WEB DEVELOPER, MR OLIVE LTD | JUNE 2020 – MAY 2021

- Developed a RESTful API backend using ASP.NET Core and Entity Framework Core, enabling seamless data management and retrieval.
- Developed a CMS and e-commerce web application using the React framework,

EDUCATION

BSC COMPUTING, UNIVERSITY OF GREENWICH | 2019 – 2020 | First Class honours
Subjects: Enterprise Web Software Development, Development Frameworks and Methods, Component Programming and Artificial Intelligence.

FDSC COMPUTING, UNIVERSITY OF GREENWICH | 2017 – 2019 | Distinction

SKILLS

- Proficient in C#, JavaScript, blazor, React.js, ASP.NET Core, Entity Framework Core, SQL, and database design.
- Experienced using Azure DevOps, Active Directory, and B2C for application development and deployment.
- Knowledgeable in agile development methodologies and CI/CD practices.
